

MANUFACTURING

MARKET

“The Province of Ontario and Niagara region collaborated throughout the process, providing exceptional service and support in our site location efforts. In particular, they helped us with key requirements such as proximity to the Canada-U.S. border, access to talent, and transportation considerations.”

ELYSE ALLAN, PRESIDENT AND CEO, GE CANADA

Niagara is home to manufacturing icons like General Motors and General Electric, as well as hundreds of small and strategic producers that are using the local innovation and technology resources to remain highly competitive. Niagara's manufacturers are diverse, driven and keen to leverage every advantage associated with their proximity to the US.

The incredibly important role manufacturing plays in the region's economy has resulted in a strong circle of support that's grown around the sector :

- Educational partnerships
- Innovation and research centers
- Investor support and business incubators
- Generous financial investment incentives
- Ontario's 1st Foreign Trade Zone Point

EMBRACING THE FUTURE

Niagara's skilled workforce has played a key role in the recent launch of General Electric's new 450,000 sq. foot-manufacturing plant in Welland. The "brilliant factory" uses advanced software analytics to produce reciprocating gas engines and other components more efficiently.
